

EZcarlift™

PORTABLE
ON DEMAND
CAR LIFT

THE HOME MECHANICS' CAR LIFT

- the car lift that ANYONE can use AND store -

"everyone could use a lift, but not everyone has room for one – EZcarlift™ has solved this problem"

ROBUST

... lifts 4,400 lbs

SAFE

... stability at all heights

FAST

... rises 26" in 90 seconds

EASY

... powered by corded drill

PORTABLE

... fits in your car trunk

ACCESS

... unobstructed to all areas

VERSATILE

... different attachments will accommodate all of your boy-toys from a sporty Corvette to a tiny Mini; from a bagger to the muscular GT 500

- EZcarlift™ is versatile, compact and truly portable, weighing ONLY 145lbs.
- The simple mechanical design and few parts make it reliable
- Easily assembled with common wrench or socket – only 8 fasteners
- Powered by a common electric hand drill this low profile lift can raise a 4,400 lb car a full 26 inches in a mere 90 seconds

EZcarlift™ was developed specifically for the home mechanic. The **simple operation** of the common floor jack and **unobstructed access** of jack stands, were used as a model for the design. The **true portability** of the EZcarlift™ distinguishes it from all other lifts.

The lift is **compact** and designed for **tight spaces**, such as your garage. **Customized** to your car the lift does not **exceed the footprint** of your vehicle, leaving **full access** from all sides to **all areas of the underbody**.
